Homelessness in Our Community By Kyle Heimerl

When I think about homelessness, I've never really thought about the types of resources that are available in our community.

We often see homeless encampments with a lot of tents and beds and bikes and shopping carts. It seems that homelessness has been rising in our community. Some people may choose this way of living, but many do not. Sometimes not so good things happen in life. But our community does have some help for people. We can vote to pass legislation that helps homeless people.

We can learn about the issue of homelessness. Housing can be very expensive, especially with rising costs of other living expenses, including clothing, gas, food, etc. It's sad to see the world be in this shape. I am sure that we can come together and improve things.

Below are resources listed for Calaveras County for those who are in need or at risk of losing their housing:
