New Year's Party

By Elyse

My honey and I love celebrating the New Year! We come up with a menu, a list of guests, decorations, and games to play. On New Year Eve first we get ready and have breakfast. Then we prepare the hors d'oeuvres and set the table. Next guests start to arrive! We start with drinks and snacks, and all hang out before having dinner. After dinner we made ice cream sundaes. Some people go home, and others stay the night to ring in the New Year!

Winter Fashion By Sharly

When shopping for winter clothes we don't want to go dull bright colors can be fun. Some essential pieces for your winter outfits include boots, jackets, scarves, and earmuffs. Also, some of my personal favorites are pairing and mix matching different patterns together then adding my Ugg boots. Last a good way to add some sass to your outfit during the winter months are adding leg warmers and definitely jewelry.
